

THE RAYMOND LION

The Lions are coming out!

The most recent meeting of the Raymond Lions Club was held at the Legion Hall on Monday night. Thirty answered the roll call — that is the largest attendance in months. I guess that the Civic elections must have done the trick. Or maybe that did the elections — the largest vote was cast last Monday that Raymond has seen in many years.

Charter Night parties have about run their course. Mrs. Anne King and Della accompanied Melvin and Ray to the big Cardston party on February 27. Cardston remarked that Raymond is slipping. We usually have twelve to sixteen at their Birthday party. The next evening came the Lethbridge Anniversary. P. K. and Elda, Hiedi Karaki and Scotty, Tucker Hironaka and Kinko, Karl Wilde and Hilda, Leon Harker and LaFern were out to represent the Raymond Club at that do. The Lethbridge Club sponsored the Raymond Lions Club in 1940. The Raymond Club will celebrate its Charter Night . . . ?

The Club spent considerable time discussing the organization of a Harness Racing Circuit in Alberta. Our Club has been invited to enter the organization to race some time in June. There are a great number of obstacles facing the project — the big one is how to fill the grandstand with race fans in a town that does not sponsor racing. Will people come out like they do for a stampee or will we be stuck with three thousand dollars expense and a hundred people to see the show? Your guess is as good as the next.

To curl or not to Lions is the big guessing game this winter. Jim Hironaka gets stuck with four draws in a row at six o'clock on exact nights that the Lions meetings have been held. A reward is offered to any enterprising statistician who can figure out the probability of a Lion getting in all his curling draws and still attending all Lions meetings. A few Lions really did the trick. Of course there are a few who have missed both fairly consistently.

Blindness is our business. Believe it or not. The canvass for funds for the Canadian Institute for the Blind has gone very poorly this year. Two-thirds of the Lions are apathetic and the rest are meeting rather poor response from the public. Give — that a less fortunate neighbor may find life less confusing by accepting your contributing aid to send him to school to learn how to get by his obstacles and earn a living as well as enjoy life at home. We have raised less than half of the usual Raymond total.

Paul Moreland is the chairman of the Committee for Conservation of Sight. He has arranged with Dr. Cliff Palmer of Lethbridge to examine the eyes of all students in grade one and any that may have been missed in the higher grades last year — or any who may need re-examination.

"Now students", says the pretty young teacher, "after I have explained about the Lions fearlessness, strength and daring, can any of you name a single animal that the king of beasts is afraid of?"

Little Billy shot up an eager hand. "I am surprised", says teacher, "what in the world could it be Billy?" "Well", says Billy, "there is the lioness." Hi Lions!

Mr. and Mrs. T. Geo. Wood have returned from their extended trip through the States.

A Note Of Appreciation

I wish to take this opportunity to express my appreciation to the people of Raymond for their expression of confidence in my behalf, in the recent election.

The voting was general, and all candidates secured substantial support. I trust the successful nominees will receive the support of all the townsmen in making Raymond, a better place to live. We welcome suggestions, and it will be my aim to encourage citizens to be Raymond-minded in every respect. Start at home and work out — spend your money in town as far as possible, and with the support of all, we will be able to make Raymond a place where others will desire to live and spend theirs. Trade, labor and production is the life blood of town revenue, and few things now days come free. The town's need for improvement will always be practically without limitation. Peoples' wants in a town are the same as in a home — one improvement calls for another, and we desire to improve just as rapidly as town support, good judgment and finance will permit. It will be our purpose to serve the citizens to the very best of our ability, in securing an efficient and economical operation of town affairs.

It Isn't The Town, It's You

If you want to live in the kind of town you like,
You need not pack your clothes in a grip,
And go on a long, long hike.
You'll only find what you left behind.
For there's nothing that is really new,
It's a knock to yourself when you knock your town.
It isn't the town, it's you.
Real towns are not made by men afraid,
Lest somebody else get ahead;
When everybody works and nobody shirks,
You can raise a town from the dead.
And if, while you make your personal gain,
Your neighbor can make one, too.
The town will be what you want it to be,
It isn't the town, it's you.

Gordon Rasmussen Buys Graham Motors

Gordon Rasmussen, well-known farmer and businessman, has purchased Graham Motor and Machine Co. Ltd. from Mrs. Lottie Graham for an undisclosed amount. The sale was completed early in March.

Mr. Rasmussen has, for the past several years, been the local dealer for Sturdie Propane—a business he conducted with the co-operation of Scott's Farm Supply and later Fritz's Farm Supply.

When he purchased Graham Motors he moved his business to his new location and will continue in this line as well as the lines formerly carried by Grams.

The Second Ward Sunday School Board held its regular meeting at the home of Mrs. Nellie Duncombe recently.

The Les Ames Club met at the home of Mrs. Rita Rasmussen Wednesday evening for their monthly get together. A very enjoyable evening was spent playing Rook with lovely prizes being presented to Roxie Hamilton and Katherine Brandy for high and low scores respectively.

A delicious lunch was served by the hostess and assistant hostess Elsie Paxman.

RAYMOND RECORDER

C. W. Lamb Has Had Half Century Of Voting

C. W. Lamb is a man who takes his voting as a matter of habit. In 1902 he voted in the election of a Reeve for the Village of Raymond. He didn't tell us if he voted for the successful candidate or not but he told us that Mr. Henry Fairbanks held that office.

In 1903 Mr. Lamb voted in the first election of the Town of Raymond and had the honor of being elected to the Town Council. The Mayor elected at that time was Charles McCarthy and the other members of the Council were: T. O. King, E. B. Hicks, B. F. Rolfsen, A. E. Moore and Russell McDuffy. The Secretary at the beginning was T. J. O'Brien but that office was passed on to R. O. Matheson (who, incidentally gave Raymond its first newspaper).

Since that time Mr. Lamb has voted in all the civic elections that have been held in town and has lived to see seventeen other men fill the office of Mayor.

Following is a list of those men: Mr. McCarthy held the office until 1906.

Geo. W. Green (1906-1908). Dr. J. H. Rivers (1908-1910). George H. Budd (1910-1911). B. S. Young (1911-1912). J. W. Evans (1912-1914). M. V. Green (1914-1915). T. J. O'Brien (1915-1919). Lambert Pack (1919-1920). Devoe Woolf (1920-1923). O. H. Snow (1923-1925). Geo. E. Court (1925-1927). P. W. Cope (1927-1931). W. G. Meeks (1931-1936). S. I. May (1936-1939). P. W. Cope (1939-1945). Wm. Jensen (1945-1952). Frank R. Taylor (1952-).

May Mr. Lamb vote in many more elections!

Most Red Cross Help Is Volunteer

The Red Cross canvasser who calls at your door during the Society's current campaign is a volunteer worker — working in the interests of every Canadian. As a matter of fact, 97 per cent of the workers who make Red Cross services possible are unpaid volunteers.

Without the volunteers, the Society could not operate. The three per cent of Red Cross workers who are paid, fill jobs which require constant supervision from full time employees. We point this out to let you know that the more than five million dollars required this year are needed to maintain services for veterans—provide medical aid to those who live on our frontiers, through Outpost Hospitals and Nursing Stations—to meet any emergency when disaster strikes—maintain the Free National Blood Transfusion Service—and other essential services which make Canada a better place to live. The Canadian Red Cross Society is yours!

When the canvasser calls give generously—give from the heart.

I wish to express my thanks to all those who voted for me in the past election.

Mr. and Mrs. Jim Harker sang "In The Garden" before Bishop Snow's words of consolation and advice. Rol Stone played an organ medley of "Guide Me To Thee" and "O My Father" after which the choir sang "I Know That My Redeemer Lives" with Joe McLean and Velma Bigelow singing the solo parts. Elder D. A. Bennett offered the benediction.

Treating Seed Means Better Crops
 Seed treating and cleaning is the first step every farmer in Western Canada should take this Spring to insure increased yields of high quality, smut-free grain in 1952.
Why Seed Treatment? As we pointed out in our last article a very serious smut situation exists in Western Canada. The common cereal smuts can be easily, effectively, and economically controlled by seed treatment. Furthermore, seed treatment gives good control of certain other destructive seed-borne diseases of small grain crops, and protects the seed against soil-borne diseases such as the seed rots and seedling blights.

Recommended Treatments. The officially recommended seed-treating chemicals for 1952 are: Agrox C, Ceresan M, Leytisan, Mergamma C and Panogen. These chemicals are highly effective in controlling most seed-borne diseases of cereals, except loose smut of wheat and barley. The chemicals "Anticari" and "Bunt-No-More" will control bunt of wheat, but they will not control the smuts of oats and barley. Be sure and treat dry seed of wheat and flax at least 24 hours before seeding. With dry seed of oats and barley, however, best results are obtained when the seed is treated at least one week in advance of seeding. Don't use artificially-dried grain for seed unless you know it germinates satisfactorily.

Treatment of Damp Grain. Under no circumstances should "tough and damp" grain be treated with Formalin or Bluestone. Wheat, oats and barley with a moisture content of more than 16 1/2%, and flax with over 12% moisture, should not be used for seed unless a germination test has shown that it germinates satisfactorily—65% or higher. Moist grain of good germination should be treated with an approved chemical disinfectant, but such seed should not be treated earlier than 24 hours before sowing.

The best seed treatment advice we can give to farmers is this. Be wise, be modern, play safe—plant only cleaned, treated seed in 1952.

Preston Town Clock

A model of the old Town Hall clock tower of Preston, England, was a unique Canadian Pacific Express shipment aboard the Empress of France when she docked at Saint John, N. B. last week. The model, which moved in the custody of Chief Bedroom Steward William C. Hartley (far right) a

native of Preston, is now travelling throughout Canada and the United States, and is being displayed in the city halls of many of the major cities. With it is an illuminated scroll on which all ex-Prestonians are asked to sign their names. The clock tower, carved from the original timbers of the old structure which was destroyed

by fire in 1917, is a symbol of the Preston Guild celebrations which, with the exception of the war years, have been held every twenty years for the last 400 years. They will be held in Preston on Sept 1 this year and the model of the tower carried an invitation to all Prestonians to attend

JIMMY SHIELDS

Here's Toronto radio tenor Jimmie Shields all topped up for the wearin' o' the green on March 17. There'll be a touch of the shamrock in his songs on Sunday night, March 16, when he turns up on his regular page in "Bod's Scrapbook", heard at 8 p.m. on the CBC Dominion network. Besides his job with Bod he has two other weekly programs. He's one of the stars of "Musical Comedy Time", a new Sunday night show on CBX at 9 p.m. and on Wednesday evenings he has his own show at 5 p.m. on CBX. He is a frequent guest on other programs, too. Irish ballads and modern love songs are only part of his repertoire — he rounds it out with arias and classics.

Chips From The Scout Log

First Raymond Troop

After this week's meeting there were about a dozen tired boys, or at least their arms were tired. They had spent the evening learning and practicing their semaphore. Semaphore is a method of sending signals with flags. A new speed test in signalling has been added to the first-class requirements so the boys have to brush up on it a bit.

Other tests have also been added. They are: highway code for pedestrians and cyclists, and bicycle test to second-class; life-line throwing, tracking, trees and birds, splices and knots, highway code for vehicles, traffic control, bicycle repair, and reporting of accidents to first-class.

Eleven new proficiency badges have been added, too, and all these changes have made it necessary to print a new progress chart. We've got our chart all fixed up with various colored stars. Some of the boys have nearly a solid row of stars, and then there are rows that stand out because of blank spaces. As a whole, the troop has really made progress. Last year at this time there were four tenderfoot scouts, and now there are seven tenderfeet, nine second class and one first-class scout.

Arthur Hudson has recently qualified for a Grade A all-round cord. To qualify a scout must be first-class with six proficiency badges.

Asst. District Commissioner Sandy Rolfsen visited the troop this week.

Future Activities

Field Commissioner Len Ankers has postponed his visit until April 1st.

The Trophy Competition ends this month. Gordon Tychsen's Fox Patrol has edged ahead of Max Holt's Wolves. Let's make this a real good fight boys, remember, the losers have to do the cooking and dishwashing on the game day in April.

THE CHALLENGE

This year again the Red Cross Appeal presents us with a challenge . . . and an opportunity. New victims of war wounds, greater need of lifesaving blood transfusion services, the inevitability of great disasters of fire and flood . . . all must find the Red Cross ready. As the need to alleviate suffering grows, the generosity of Canadians grows too. But today the task is almost beyond measure. There is the challenge. The opportunity to help is before you.
